To whom it may concern,

The British Columbia Emergency Health Services has worked with Built Contracting Ltd. on a new ambulance station located in Parksville, BC. BCEHS worked with Mike McKinnon of Built Contracting Ltd. and found him and his company to be very professional. His company's responsiveness to issues was impressive. Their Project Management, onsite construction management, quality of workmanship and organizational skills were exceptional and because of this, the project was completed on schedule and within budget.

In addition to the above project, Mike was involved in BCEHS projects on Denman and Quadra Islands. Even with their somewhat remoteness, both these projects were handled very professionally.

I would not hesitate in recommending Built Contracting Ltd. to anyone looking for a quality company to look after your project.
